

For perfect pharmacy storage conditions

## Trust Labcold

Labcold are the UK's premier manufacturer of medical and scientific refrigeration.

For over 40 years, Labcold has been producing professional refrigeration for a variety of applications, and today has developed an unrivalled reputation for innovation and excellence. Our clients include the NHS, the British Army and prestigious scientific laboratories and research facilities.

The Labcold product portfolio includes:

- ❄ Fully Medical Device compliant blood banks and plasma freezers
- ❄ Sparkfree laboratory refrigerators and freezers
- ❄ Platelet agitators
- ❄ Ultra low temperature Freezers
- ❄ Ice Makers
- ❄ Temperature monitoring and mapping equipment
- ❄ Installation, servicing and commissioning

With this much experience and expertise, you can be sure that when you choose Labcold, you are choosing a company whose name is synonymous with quality and service and is dedicated to meeting and exceeding the exacting standards set by professional scientists and health care providers.

The professional  
choice for professional care.

Pharmacy Refrigeration

2009 - 2010

300 Litre Glass and Solid Door

360 Litre Glass and Solid Door

Labcold pharmacy refrigerators have been carefully designed and constructed to meet the needs of healthcare professionals. Available in a variety of sizes ideal for the consulting room through to the dispensary, Labcold pharmacy fridges are guaranteed to keep costly vaccines and medicines in optimum condition. This is why Labcold remain, after more than 40 years serving the medical and scientific community, the professional choice for professional care.

- ⊕ Designed specifically for pharmacy applications
- ⊕ Integral digital temperature display
- ⊕ Min/max temperature recording
- ⊕ Lockable doors
- ⊕ Hi/low audible alarm
- ⊕ Accurate temperature control
- ⊕ Easy clean interiors
- ⊕ Automatic defrost with condensate removal
- ⊕ CFC, HCFC and Ammonia free
- ⊕ DoH Green book and RPSGB compliant
- ⊕ Fan assisted air cooling for rapid temperature recovery

30 and 66 Litre Wall Mounted and Bench Top

12 Litre Portable Vaccine and Sample Carrier

150 Litre Glass and Solid Door

490 Litre Solid Door

Easy-glide, space saving Pharmacy Drawers available for larger models

Labcold Advanced Pharmacy refrigerators have been designed and developed specifically for the storage of temperature sensitive pharmaceuticals in demanding applications.

Ergonomically engineered with robust all metal construction and hygienic stainless steel interiors ensures these products can withstand the rigours of a busy research department or hospital pharmacy. High performance refrigeration systems controlled by the latest microprocessor electronics assures reliable and precise temperature control to maintain your vaccines, medicines or samples under optimum conditions.

- ⊕ Precise microprocessor temperature control
- ⊕ Digital temperature display
- ⊕ Audible temperature alarm
- ⊕ Optimum air flow and temperature uniformity
- ⊕ Auto defrost with minimal temperature variation
- ⊕ Lockable castors
- ⊕ Durable metal construction with stainless steel interiors
- ⊕ Lockable doors
- ⊕ Optional extras include: sample storage, racking, remote alarm contacts, access ports and temperature recorders
